

Linux Programming Projects for CS-450 and CS-550: **Operating Systems**

Fall 2005 Semester

On *helium*:

Note that the Linux commands given below are case-sensitive. If you type a lower-case letter where an upper-case letter is indicated, or *vice versa*, then the command might not work.

For the **first** programming project:

```
$ cp source-file /cs/shr/CS-450/Program-1/LastName-IJ.c
```

```
$ chmod o+rx /cs/shr/CS-450/Program-1/LastName-IJ.c
```

For the **second** programming project:

```
$ cp source-file /cs/shr/CS-450/Program-2/LastName-IJ.c
```

```
$ chmod o+rx /cs/shr/CS-450/Program-2/LastName-IJ.c
```
