

## File Format: .trn Files

### Line Terminators

All lines are terminated with a single line-feed character (i.e., '\n').

### Field Delimiters

All fields within a line are delimited by a single tab character (i.e., '\t').

### Description

Each line/record contains information about a student's grade in a course.

The first field contains the course label/identifier.

The second field contains the letter grade the student received in that course. A missing grade is indicated with the String literal "N/A".
