Epic Name Flexibility in Recipes

As a user I want the ingredients and utensils in a recipe to be more flexible.

Story Name Substitutions in Recipes

Business Value: Medium

As a user I want to be able to include ingredient substitutions in recipes so that I can prepare different versions (e.g., to account for different restrictions that people may have).

Epic Name Drink Pairings

As a user I want to be able to include drink pairings in recipes.

Story Name Adding Drink Pairings to Recipes

Business Value: Low

As a user I want to be able to add drink pairings (e.g., wines, beers) to recipes so that I can keep track of drinks that complement particular recipes.

Story Name Viewing Drink Pairings

Business Value: Low

As a user I want to be able to view drink pairings for both recipes and meals so that I can prepare to have them available.

Epic Name Ingredient Inventory

As a user I want the system to maintain an inventory of ingredients that I have in my kitchen.

Story Name Adding to the Inventory

Business Value: Low

As a user I want to be able to indicate that I have purchased (a particular amount of) something on a shopping list so that it can be added to the inventory.

Story Name Reducing the Inventory

Business Value: Low

As a user I want to be able to indicate that I have prepared a recipe or meal so that the inventory of the relevant ingredients can be reduced.

Story Name Manual Manipulation of the Inventory

Business Value: Low

As a user I want to be able to manual add items to the inventory or remove them from the inventory (e.g., because of spoilage) so that the inventory can be kept up-to-date.

Epic Name Copy/Paste

As a user I want the editors to include copy/paste functionality.

Story Name Copy/Paste Utensils

Business Value: Low

As a user I want to be able to copy/paste utensils from one recipe to another so that I can reduce the amount of typing that I have to do.

Story Name Copy/Paste Ingredients

Business Value: Low

As a user I want to be able to copy/paste ingredients from one recipe to another so that I can reduce the amount of typing that I have to do.

Story Name Copy/Paste Steps

Business Value: Low

As a user I want to be able to copy/paste steps from one recipe to another so that I can reduce the amount of typing that I have to do.

Story Name Copy/Paste Recipes

Business Value: Low

As a user I want to be able to copy/paste recipes from one meal to another to another so that I can reduce the amount of typing that I have to do.

Epic Name Cooking-Related Devices

As a marketer I want the system to be able to explicitly support cooking-related devices (e.g., refrigerators, ovens, stoves, slow cookers, etc.).

Story Name Devices in Recipes

Business Value: Lowest

As a marketer I want recipes to include cooking-related devices and associated information (e.g., temperatures) so that, in the future, the system can control them.

Epic Name Preparation Assistance

As a user I want the system to make it easier to complete timed steps.

Story Name Audible Alarms

Business Value: Lowest

As a user I want the system to include audible alarms for timed steps so that I don't have to set timers on different cooking devices.

Story Name Multiple Chefs/Cooks

Business Value: Lowest

As a user I want the system to be able to divide steps among multiple chefs/cooks so that I can prepare recipes/meals more efficiently.

Epic Name Photographs

As a user I want to be able to include photographs in recipes and meals.

Story Name Photographs of Steps

Business Value: Lowest

As a user I want to be able to include photographs of intermediate steps in the process so that I can prepare the recipe correctly.

Story Name Photographs of Dish

Business Value: Lowest

As a user I want to be able to include photographs of the result of a recipe so that I can prepare the recipe correctly.

Story Name Photographs of Meal

Business Value: Lowest

As a user I want to be able to include photographs of a meal so that I can see what it will look like on the table.
